

ANY BRAND OF PIVOT. ONE CONNECTED NETWORK.

The Valley[®] ICONX is the first and only remote control product that gives growers full control at the pivot point with an easy-to-use touchscreen. It uses your existing control panel, Valley or other brand, as a host to pass through commands to control your center pivot. The Valley ICONX is an affordable way to bring advanced technology to your operation and into the Valley/AgSense[®] technology family. By using the 5-inch touchscreen, the Valley ICONX allows for easy, intuitive full control at the pivot point and remotely on one consistent connected network.

Key Features

- Overlap Zone Alert
- Cruise Control™ for accurate rotation, exclusive Valley feature
- Programmable bi-directional VRI Speed Control
- VRI Zone Control capable
- Integrated with agronomy software platforms allowing prescriptions to be pushed to the panel
- GPS Position
- Cable theft monitoring*
- AgSense[®] Enabled - AgSense comes built in and ready to use*

Valley ICONX smart panels are compatible with **any major brand** of pivot, and are an easy upgrade to add new features and capabilities.

*Additional hardware or subscription required.

The Valley ICONX is not a fully functional panel by itself. Rather, it uses the power of the existing host panel.

Developed to solve the needs of growers.

No one likes to discard a working product because newer technology is available. With the Valley ICONX, you don't have to. By using your existing pivot control panel as a host for the Valley ICONX, you now have the ability to update and bring your operation into the future. It's an affordable way to add remote monitoring and control access through AgSense or BaseStation3™ without a full panel upgrade. The ability to take mechanical controls and make them accessible through a 5-inch, full-color touchscreen adds a new level of ease and simplicity to your irrigation management.

Setting the Standard

Control at the pivot point:

- End gun control
- Advanced step programming
- Stop-in-slot programming
- Configurable touchscreen
- Intuitive diagnostics
- Panel history log
- Pressure and voltage readings
- All control functions

A consistent interface and access to real-time data is available across all of your devices from anywhere in the world.

MONITOR

Access real-time status of your pivot and other inputs.

CONTROL

Control your irrigation machine from your mobile device or desktop.

REPORT

Learn from your past with historical data in easy to read, customizable formats.
