Dear Luke

Letter of Acceptance: INGAL Motorcyclist Protection System (Ingal MPR)

Thank you for submitting the information regarding the Ingal Motorcyclist Protection Rail (MPR) for use on the Ezy-Guard W-Beam barrier systems.

We have reviewed the submitted information and are prepared to accept installation of the Ingal Motorcyclist Protection Rail (MPR) as an under-run system on the Ezy-Guard "4" and "Smart" W-Beam barrier systems on the State highway network.

As with all safety improvement works on the State highway network, the provision of under-run barrier will be subject to our safety investment prioritisation process.

Please note, should the NZ Transport Agency discover at any later date that the submitted testing information was flawed, that in-service performance reveals unacceptable safety problems, or that the system being marketed differs significantly from that which was crash tested, it reserves the right to modify or revoke this acceptance. Should the Austroads Safety Barrier Assessment Panel (ASBAP) identify any constraints in regard to use of the product during its assessment process, we reserve the right to introduce those same constraints.

Yours sincerely,

Fergus Tate
National Traffic & Safety Manager
Highways & Network Operations
