

Altor, the decorative option for high-mast projects.

Utilizing Valmont's Seamless Weld Technology (SWT) specialist sections make our conical columns a great option for large scale area lighting. Altor, is the perfect choice for projects with height requirements between 12 and 20 meters.

The Altor range is offered with 2 doors to give ample accessibility to electrical equipment. Complimented with special structure capabilities for larger, stronger columns for multi-application use whilst having a rare circular profile in heights up to 20m.
