

Ruka, a range of square lighting columns.

All shafts are manufactured from GL28h glued-laminated timber. The raw materials we use to produce our wooden columns are harvested from sustainability managed, PEFC certified forests.

All wood is treated with a water-based stain finish consisting of four protective coats, VOCs <100g/l.

Square base and flush pole cap, in hot dip galvanised and powder coated S235 steel.

The range is designed and developed according to eurocodes 5, standard EN40 and EN1995.

A ZEP contract for CO₂ compensation is available.
