

Closed Hoisting Grips

COAX ACCESSORIES

CLOSED HOISTING GRIPS

Features:

- Closed design slips on to the end of the cable before connectors installation
- Longer grips result in less cable stress and greater resistance to pull-out, flexure, and vibration
- Closed grips include a stainless steel clamp to increase holding power and prevent cable slippage
- Use for lifting cables and for strain relief at 200' intervals on long cable runs

Construction:

- Stainless steel braided wire construction

Part #	Cable Size & Type	Overall length	Mesh length	Type
HG12-C	1/2" Coax & LMR 600	18"	7"	Slip-On
HG78-C	7/8" Coax & LMR1200	34"	21-1/2"	Slip-On
HG114-C	1-1/4" Coax & LMR-1700	40"	27"	Slip-On
