

# Lace-Up Hoisting Grips

COAX ACCESSORIES

LACE-UP HOISTING GRIPS

## Features:

- Lace-up design allows installation after connectors have been installed
- Longer grips result in less cable stress and great resistance to pull-out, flexure, and vibration
- Use for lifting cables and for strain relief at 200' intervals on long cable runs

## Construction:

- Stainless steel braided wire construction

| Part # | Cable Size & Type      | Overall Length | Mesh Length |
|--------|------------------------|----------------|-------------|
| HG12   | 1/2" Coax & LMR600     | 15"            | 8"          |
| HG78   | 7/8" Coax & LMR1200    | 34"            | 21-1/2"     |
| HG114  | 1-1/4" Coax & LMR-1700 | 40"            | 27"         |
