

REVOLUTIONARY CONTROL IN A REMOTE DISPLAY

Pivot control through a remote panel interface.

With Valley[®] ICON1, full control of your smart panel is accessed via a built-in WiFi signal to deliver localized management for the pivot. No longer do you have to drive to the pivot point or open the control panel to have complete operation and access. Save time, fuel, and wear and tear on your truck by accessing smart panel interaction through your mobile devices.

Key Features

- Remote device WiFi access**
 - No cell service or internet required.
- Wireless display through tablet or smartphone
- AgSense[®] Enabled – AgSense comes built in and ready to use*
- BaseStation3™ compatible*
- ICON app available on the App Store and Google Play
- Cable theft monitoring*

Remote Device WiFi Access

*Additional hardware or subscription required.
 **Limitations based on field conditions.

VALLEY ICON¹

SMART PANELS MADE EASY.

Get set with remote capability.

Quickly switch between pivots to send commands and adjust controls by downloading the Valley ICON app from the app marketplace on your mobile device. Full control of your smart panel has never been so easy. In addition, if you want full remote control from anywhere in the world, the Valley ICON1 comes standard with AgSense ICON Link pre-installed so that you can access your pivot no matter where you are.

Setting the Standard

Every ICON1 control panel is equipped with:

- Customizable mobile user interface
- GPS Position ready
- Auto reverse/Auto stop
- AgSense Enabled – AgSense comes built in and ready to use*
- BaseStation3 compatible*
- Variable rate irrigation (VRI) capable

A consistent interface and access to real-time data is available across all of your devices from anywhere in the world.

MONITOR

Access real-time status of your pivot and other inputs.

CONTROL

Control your irrigation machine from your mobile device or desktop.

REPORT

Learn from your past with historical data in easy to read, customizable formats.
