Decorative Lamp Post

SMOOTH STRAIGHT 4 INCH DIAMETER POLE SHAFT

- Straight Non-Tapered, reinforced composite pole shaft
- Direct Embedded and Anchor Base models
- One piece XTREME® elastomeric urethane base cover

- WHT White
- GRY Grey
- CC Custom color - Please provide a min. 3" x 3" color chip.
- RAL Please provide a four digit RAL color number.

**E** tenon O.D. (outside diameter)

- **Cat No.**
- **Description**
- 23 2 3/8" (60 mm)
- 27 2 7/8" (73 mm)
- 30 3" (76 mm) nominal
- 35 3 1/2" (89 mm)
- 40 4" (102 mm)

**F** tenon height

- **Cat No.**
- **Description**
- -30 3.0" (76 mm)
- -35 3.5" (89 mm)
- -40 4.0" (102 mm)
- -50 5.0" (127 mm)

- For other tenon sizes contact the factory.

**G** options

- **Cat No.**
- **Description**
- RC Receptacle housing and a NEC approved cover. GFCI receptacle by others. Standard location is 12"/305mm below the top of the pole.

- Other accessories are shown on the Accessories specification sheet.

Specifications

POLE SHAFT
The composite lamp post shall be smooth straight. The post shall be 4 inches (102mm) in diameter with a nominal wall thickness of .28 inches (7mm). The hand hole shall be 2 inches (51mm) x 4 inches (102mm) with a cover. The post shall be constructed of fiberglass reinforced isopthalic epoxy resin utilizing glass roving, continuous strand mat and off axis fibers oriented for optimum strength and rigidity. The post shall be non-conductive and chemically inert.

PERFORMANCE CRITERIA
The post shall be designed with a minimum safety factor of 1.5:1 and have no more than a 10% deflection at full wind loading. The post shall deflect no more than 2.5% of the above-ground length with 100 lbs. of lateral top load (stiffness). Poles shall be tested and rated per ANSI C136.20-2012.

DIRECT EMBEDDED INSTALLATION
Direct embedded poles shall have a 2 inch (51mm) x 4 inch (102mm) hole for conduit entrance 24 inches (610mm) below finished grade. Embedded depths may vary per local codes, site soil conditions, drainage and very high wind conditions.

ANCHOR BASE INSTALLATION
Anchor bases shall be constructed of steel or 6061-T6 aluminum base plate. The base shall be factory bonded to the post. The anchor base shall have four holes at ninety degrees, accommodating a bolt circle of 7 inches (178mm) to 9 inches (230mm).

POST TOP
A painted 6061-T6 aluminum tenon shall be firmly bonded to the pole for mounting a post-top luminaire or arm.

FINISH
The surface of the post shall be uniform and consistent for the entire length of the post. A UV-resistant catalyzed urethane coating shall be extremely durable and retains its gloss after a 5000 hour exposure test (ASTM) to the sun, with no dulling or chalking of the surface.

ORNAMENTAL BASE COVER
The ornamental decorative base cover shall be one piece and constructed from a proprietary elastomeric urethane and finished to match the post. The base shall be corrosion free and extremely resistant to impact and chipping.

WARRANTY
The products shall be warranted to be free of defects for three years from the date of shipment from the factory.

Wind speed values are for a 3-second gust per ASCE. Calculated per ANSI C136.20-2012. 1.0 Importance factor. Assumes load 12 inches above the pole top.
Safety factor = 1.5:1.

Contact the factory for AASHTO or specific local codes.
